INCREDIBLE SOLUTION

- ✓✓✓ New Generation
- Stretch Fabric
- Narrow Tape
- 3-layer
- 20% faster
- Software Upgradable

(Patented)

With over 15 years of experience and know how, H&H is proud to present the latest development in seam sealing technology - the new AI series hot air sealing machines. Built on pure digital platform, these machines are designed for professional users.

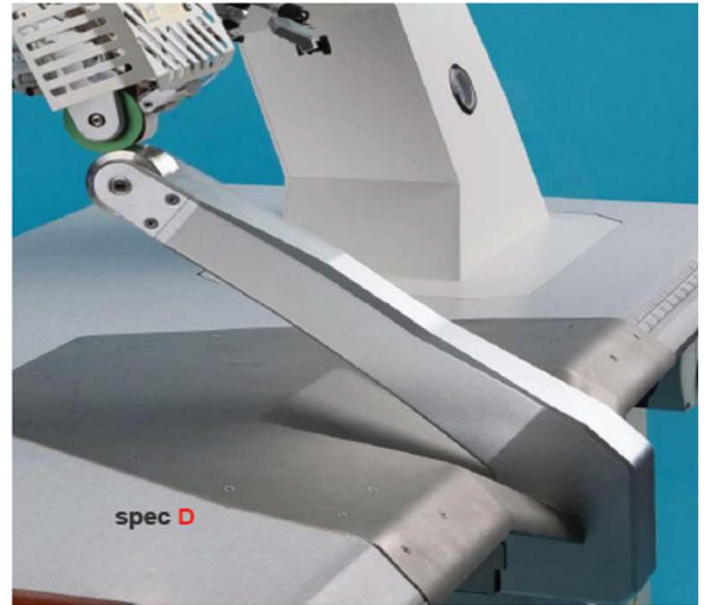

In the past, taping machines had been built with same technology. Factory users were forced to compromise between quality and efficiency as fundamental problems in seam sealing still exist in day to day production, until now. Unique features of the AI allow you to fine tune sealing conditions in the time domain level, eliminating traditional problems.

Real Artificial Intelligence**

Options

AI-007 Specifications

- ~ **Power Supply**
AC 220V 50/60Hz
- ~ **Power Consumption**
3600W max
1500W typical
- ~ **Compressed Air**
0.4 - 0.6 Mpa
- ~ **Sealing Speed**
1 - 60 ft/min
- ~ **Nozzle Temperature**
50°C - 800 °C
- ~ **Nozzle Unit**
22mm, other optional
- ~ **Upper Roller Width**
25.4mm
- ~ **Lower Roller Width**
30mm
- ~ **Overall Dimensions**
1.2m(L) x 0.7m(W) x
1.8m(H)
- ~ **Overall Weight**
120kg

This newly added member **AI-007** inherited the traditions from its family, the legendary AI-series hot air machines. Precise, smart and fast are just some of its characters.

Using the new modular concept in manufacturing, we are able to reduce the cost of production. End result is the highest Performance to Price ratio hot air machine we ever built, high performance yet affordable.

Individual program control for tape start+middle+end allows you to master seam sealing like no others, minimizing heat press to fix after taping.

Large area color touch screen panel with graphic display is user friendly and easy to learn.

Durable construction minimizes maintenance and down time, thus increase productivity.

Exceptional wide point of view around the sealing zone allows operator to focus on the product, eliminating fatigue.

Please contact us for a demo session to discover just how much our new **AI-007** can improve your productivity.
