

AHU27-55
ASU27-75

Drive Technology

The AH27 series of servo motors is designed to drive industrial sewing machines from overlock and safety stitch machines to coverstitch machines and light to heavy duty lockstitch sewing machines where only needle positioning is needed.

MAIN FEATURES:

- Programming function direct on control box
- Stepless speed control
- Needle positioning

- Seven LED digital display.
- Up and down needle positioning and soft start function one key setting.
- Control parameters setting.

TECHNICAL DATA:

MODEL	VOLTAGE	SHAFT RPM (MAX)	RATING
AHU27-55	220VAC +/- 20%	5000	550W / 5Nm
ASU27-75	220VAC +/- 20%	3000	750W / 8 Nm
